

Laboratory Equipment

High-Efficiency Equipment

High-Efficiency Separation Pump

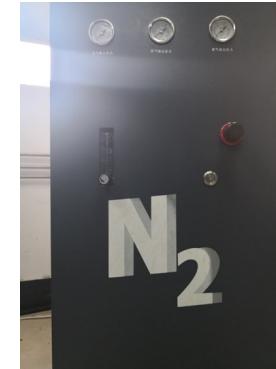

Voltage: 220VAC

Power: 450W

Flow Velocity: 20~300ml/min

PI & PI BIOTECH INC. LTD.
广州牌牌生物科技有限公司

Guangzhou PI & PI has developed its own High-efficiency Separation Pump. PI & PI is also an agent of its advanced equipment. The company sells those apparatuses to cooperative company to improve partner R & D efficiency.

Nitrogen Generator

Gas Flow: 0-5L/min

Gas Purity: 99.9%

Output Pressure: 0~0.5MPa

Output Power: 500W

Pressure Swing Adsorption Nitrogen Generation.

Dry Type Transformer

OSG Three-phase and ODG Single-phase Auto-transformer. Can work for 24h without interruption.

High Speed Pulverizer

Voltage: AC220V

Power: 1000W

Capacity: 1750ml

Use for Pulverizing Raw Material.

UPS

Input: 220VAC, 50Hz

Output: 220VAC, 50Hz

Input protection: 250VAC

16 Batteries for Power Storage

更好的研究 更好的生活 *Better Research Better Life*

地址: 中国广州科学城揽月路3# 华南新药创制中心F楼516室
Address: 516 Suite F Bld. 3# LanYue Road, Guangzhou, CHINA

Ice Machine

Ice making: 60kg/24h

Capacity: 25kg

Voltage: AC220V

Output Power: 420W

Refrigerating fluid: R134a

Rapid Ice Making
